

I claim:

A new and distinct rose cultivar of the Floribunda class  
with essential features as follows:

1. Prickles are absent from any stems.
  2. White stripes lightly scattered on pink flowers.
  3. Blooms in clusters of three to six flowers.
  4. Very consistent free bloomer.
  5. Bushy, upright plant, covered with medium green matte foliage.
  6. Very resistant to powdery and downy mildew, rust and blackspot.
- substantially as shown herein and described.
